

New Store Start-up

DECA has worked with a number of businesses to assist with new location opening. This program is a great way to introduce your business to the community, find highly qualified employees and create a successful opening.

DECA will assist with the linkage of new stores to local DECA and Delta Epsilon Chi chapters by hosting a meeting of the store management and local chapters prior to the store opening. DECA chapters can assist with the initial set-up of the store and provide career fairs or recruitment drives at their campuses.
