

DECA'S COMPREHENSIVE LEARNING PROGRAM

DECA's Comprehensive Learning Program activities naturally support programs of study in four career clusters: marketing, business management, finance, and hospitality, giving you tools and resources to incorporate DECA into your curriculum and courses and bring your classroom to life.

For each career cluster, DECA programs span secondary and postsecondary, demonstrate strong partnerships, provide an accountability and evaluation system, and deliver professional development. DECA's programs support the development of 21st Century Skills and college and career readiness.

DECA's Comprehensive Learning Program offers opportunities for exciting classroom activities that connect your instruction to college and careers. DECA's Comprehensive Learning Program enhances the possibility that a greater range of student cognitive abilities are developed. It also incorporates rigor and relevance through the various activities. When using components of the comprehensive learning program as application or extended learning activities, student members are engaged in the major categories of the cognitive domain.
