HOW TO MEASURE

You will need a soft measuring tape. You may need to ask someone to help you take your measurements. Follow these simple instructions:

A. Neck: Measure around neck. Hold measuring tape level, leaving just enough room to breathe comfortably. Measure your neck size in inches and half inches. Round up.

B. Chest/Bust: Always measure around the fullest part of the chest. Keep the tape level under arms and across shoulder blades. Round to nearest inch.

C. Waist: Measure around the smallest part of natural waistline, usually just above hip bones. Stand naturally and make sure tape is level. It should feel snug but not tight. Round to the nearest inch.

D. Hips: Measure around the fullest part of hips, approximately 9 inches down from the waist. Make sure tape is level. It should feel snug but not tight. Round to nearest inch.

E. Sleeve: Starting at the center of your back, measure across shoulder, along the elbow to the point where the wrist meets the hand. Round to the nearest inch.
